

Performance & Use

- N300 travel router and range extender
- Instantly share any Internet connection
- Create a private WiFi network with firewall protection on public hotspots
- No longer pay multiple access fees for each device
- Convenient USB power options for use with laptops or wall-plug design

The NETGEAR Difference - PR2000

- High-performance flip-out antenna
- NETGEAR® genie® App—Dashboard to monitor, control & repair your personal network

On-the-go

Instantly share any public Internet connection and stay secure with firewall protection for public hotspots with NETGEAR Trek Travel Router and Range Extender. With a powerful flip-out antenna, you'll enjoy increased range wherever you are.

- Share one Internet access fee with multiple devices
- Create a secure, private WiFi network when using public hotspots
- Turn a wired Internet connection into a secure WiFi hotspot
- Boost public WiFi signal for stronger, more reliable connections
- No separate power adapter to carry—charge your mobile device via USB
- USB power option for use with laptops

At Home

With N300 WiFi speed, this compact device can be used as a router, range extender, access point or bridge to keep you connected at home or on-the-go.

- N300 WiFi router for fast connections
- Boost your existing WiFi with N300 speed
- Universal Ethernet-to-WiFi bridge to connect wired devices via WiFi
- Connect to an existing Internet provider gateway and create a WiFi access point

Speed

Fast WiFi speeds up to 300 Mbps. N300 WiFi technology provides whole home coverage. Everything you need for a fast, connected home.

N300 WIFI—Faster downloads, Internet gaming, & HD streaming

WiFi Range

The NETGEAR Trek N300 Travel Router and Range Extender provides better WiFi connectivity at public hotspots and throughout your home.

RANGE—For medium-sized homes and public hotspots

ANTENNA—Flip-out antenna for optimal WiFi coverage

Sharing

Relive memories and share them with others. Enjoy photos, videos and music stored on a shared USB hard drive. If it's secure and shared storage access you want, NETGEAR has easy ways to do it.

WIRELESS-N—Email, chat, surf, music, video

READYSHARE® USB ACCESS—Wirelessly access & share USB hard drives

Reliable Connections

Stay connected—with your devices, your media, and your friends. The advanced QoS technology provides higher priority for media streaming application for smoother HD video streaming and low-latency online gaming.

ADVANCED QoS—Optimized for smooth HD streaming & gaming

Ease Of Use

Start enjoying your new device faster than ever. NETGEAR wants to make sure installation and management is simple & easy, so you can connect quickly & make sure you stay that way!

EASY INSTALL—Easy setup for iPad®, tablets, smartphones & computers

NETGEAR GENIE® APP—Personal dashboard to monitor, control & repair your home network

Security

Maintain the highest security across your network to ensure your privacy & family is safe while online.

SECURE WIFI CONNECTIONS—Highest level wireless security with WPA/WPA2

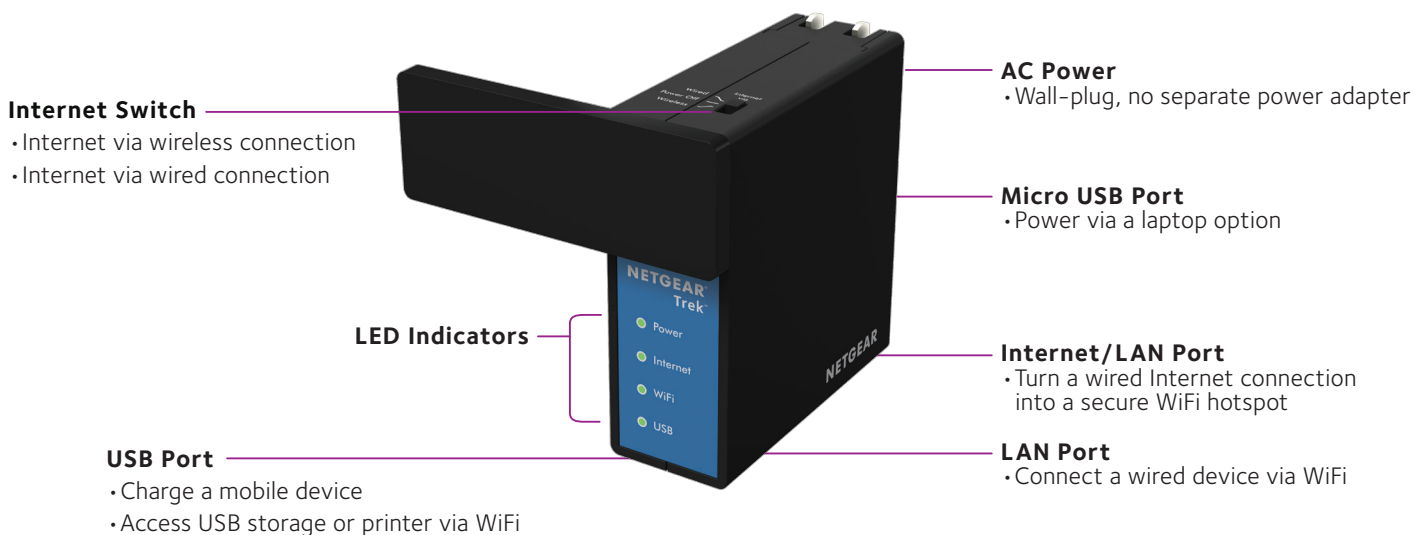

NETGEAR genie®—HOME NETWORKING SIMPLIFIED

NETGEAR genie makes getting the most out of your home network fun & easy. Installation is almost effortless - just by opening a browser, genie helps you setup your NETGEAR WiFi Router & connect all of your WiFi devices. Genie also allows you to easily monitor, connect & control your home network from a PC, Mac, tablet or smartphone. With NETGEAR genie you can share & stream music or videos, diagnose & repair network issues, set up parental controls & more.

- Home network manager
- Makes any printer AirPrint® compatible to print from an iPad® or iPhone®
- MyMedia™—Find & play media files in your network
- EZ Mobile connect—Scan QR code to connect to your home network
- Turbo-Transfer—Quickly transfer files within your home network across various devices 40% faster than normal file transfers
- For PC, Mac®, iPhone®, iPad®, & Android™ devices
